11th February 2022

Dear Parents/Carers,

At Mayespark, we want the very best for our children and we want them to feel confident in maths and we know you do too. At Mayespark, we use Numberblocks which teaches maths through a sequence of animations using number blocks and storytelling.

Through simply playing with blocks, and exploring the different shapes, children can understand a range of concepts including the composition of numbers (eg, that 4 is made of 3 and 1 more), addition and subtraction, number bonds within 10 and much more. Having a secure understanding of these concepts is really important for future success in maths.

You can access these videos on BBC iplayer.

Your child will also receive weekly homework related to the Numberblocks episode they have been using in school that week.

If you would like to purchase a set of maths blocks to support your child with maths at home, please complete the slip below by **Wednesday 23rd February** and send the money into school in an envelope.

I hope that you will take advantage of this offer and enjoy playing games with your child at home.

Yours sincerely,

Mrs Murphy

Maths leader

Name: _____ Class: _____

I would like to purchase a set of 20 maths blocks for £2.50 ☐

I would like to purchase a set of 50 maths blocks for £5 ☐

I would like to purchase a set of 100 maths blocks for £10. ☐

Signed: _____ Parent/carer
