11 March 2022

Dear Parent / Carer,

British Science Week is a celebration of science, technology, engineering and maths and we are thrilled to announce that we will be celebrating by taking part in the annual 'Poster Competition'.

This year's theme is 'Growth', which is a fitting theme for what has been a turbulent time for us all. 'Growth' links with multiple areas across science, technology, engineering and maths.

So, your child could choose to explore plant growth in a window box, the importance of growing more trees for the environment or even their own personal growth over the past twelve months. The poster could explore a tadpole's journey into a fully-grown adult frog, or look at the ways population growth is affecting the planet.

'Growth' as a theme offers a huge range of topics to delve into as a part of your British Science Week 2022 celebration.

The competition will start on **Friday 18th March** and all entries must be handed in to school teacher by **Thursday 31st March**.

For inspiration on poster ideas, check out the [2021 winners](https://www.britishscienceweek.org/winners-of-the-2021-poster-competition-announced/) at the link below:
