

Maths— Algebra, Ratio and Statistics

Children will learn about algebra and how to apply their understanding to different contexts; they will also develop their problem solving skills.

Children will also develop their understanding of statistics by applying their number knowledge within these contexts.

Science – Living Things

Children will learn about the characteristics and observable features that help scientists to classify animals into broad groups. They will look at similarities and differences between living things, including; micro-organisms, plants and animals.

Computing— Children will continue to discuss safety online, as well as to develop their knowledge on spreadsheets.

RSHE—Healthy Me

Children will discuss how to look after their physical and emotional wellbeing.

PE

Outdoor: tag rugby

Indoor: dance

Metacognition— barriers to learning

Children will consider barriers to learning and how to overcome these.

Big issue: What difference has 500 years made?

Text: *Island* by Jason Chin

English

The children will write a journalistic report about Charles Darwin's discoveries which includes extracts from another genre e.g. diary, interview, information

Geography – What difference has 500 years made?

Children will use their prior knowledge of rivers and settlements to give reasons for the location of Docklands, presented on accurately drawn maps (including compass and grid referencing).

Music

You to me are everything - Soul Music

Twinkle Twinkle - the children will use this song as a basis for their own composition

RE

The children will explore why people choose to make vows and commitments to each other and will understand the similarities and differences across faiths.

French

Children will learn words and phrases to describe clothes and colours.

Ways in which you can support your child at home...

Below is a list of activities available on the websites we subscribe to as a school, for which your child has their own login and password. These activities have been selected for your child to complete this half term, as they support learning in class. There are also some other helpful websites which can be accessed for free.

LGFL

Switched on Science

[Living things and their habitats - Year 6 KS2 Science - BBC Bitesize](https://www.lgfl.net/switched-on-science/year-6/units/living-things-and-their-habitats)

<http://mathsathome.lgfl.org.uk/>

Maths at home

[MathsBot.com - Tools for Maths Teachers](https://www.mathsbot.com/tools-for-maths-teachers)

Maths arithmetic practice

TT Rockstars

Children have access to times tables challenges to support fluency in multiplication and division facts.

<http://mitrw.lgfl.org.uk/index.html>

Purple Mash

Here are some suggestions that link with topics for this half term.

<https://www.purplemash.com/#tab/pmh-home/science>

Spag.com

There will be weekly quizzes set on spag.com which is good revision of spelling, grammar and punctuation previously taught.

BBC Bitesize

[Grammar, punctuation and spelling - Year 6 KS2 English - BBC Bitesize](https://www.bbc.co.uk/bitesize/subjects/z982w9q)

Places to visit as a family:

To support your child's learning this half term, why not consider taking a trip to the Science museum to support their learning about living things. A visit to Tower Bridge is also interesting and there is a lot to learn about the Docklands, as well as a glass walkway!

Reading

In Year 6, we expect the children to read for at least 30 minutes every day. Children should change their reading book when they have finished reading it and should ensure that they sign their reading record daily.
